but the Director of P.H. seems to have addressed me D.O. to move the municipal Council to agree to the appointment a Second class Health Officer. This purely a matter of local interest and it is left to the discretion of the municipality to have either a Third class Health officer or a Second class Health officer and it depends upon the Financial Stability of the municipality to remember with the D of P.H. in this matter. Seems necessary in the matter. Submitted for orders if the file may be laid for the present and letter replied for consideration when a further report is received.
